

MISSION OF OBC KID'S MINISTRIES

To have a fool for a son brings grief

A fool is someone who makes bad choices, not necessarily evil

Kid's ministry is not just for the parent's to get a break or the kid's to have fun, it's to train and educate the kids

The enemy has many temptations lined up for our children

Way more than we ever faced and way earlier than we ever faced

We are all God's children and the enemy plays the same game with all of us, to try and wreck our lives

It's not often the big stuff, it's things like bitterness and unforgiveness

The goal, or mission, is to make disciples of Christ from a young age

Our mission as a church is to develop followers of Christ through healthy relationships which empower others to minister

We try to disciple kids, to teach them through relationships with teachers

The goal is the same in the pulpit

We go beyond just saying a prayer to get saved to show that there is a cost to following Christ

We need to surrender, make Christ the Lord of our lives, not just Saviour

We teach them the value of obedience so that when they are older they will submit to the Lord

Children must have their own relationship with Christ, they can't live off their parents relationship

It is such a blessing to submit to authority

We teach the children to praise, to store up some "praise fuel"

We teach them to pray, not just for themselves, but also for others (intercession)

We all need to meditate on the Word, it causes us to prosper

We want to partner with parents

Sin feels good in the beginning, but it is that cheese on the trap

When the trap snaps down on our necks, it's no fun anymore

Surrender

Praise, even when you don't feel like praising

Pray

Read the Word

Live it out
