

THE POWER OF A GRATEFUL SPIRIT

There is something about being thankful, that brings us into the presence of God.

It doesn't matter what our circumstances are, we can always be thankful to God.

We need to be thankful for the way God designed us.

We need to be thankful for our salvation.

We need to be thankful for the fruit of the Spirit.

When we walk in the fruit of the Spirit, blessing comes.

We need to be thankful for this country.

We need to be thankful for our race.

We need to be thankful that God wants to use the normal average person.

We need to be thankful for God given authority.

We need to be thankful for our parents.

Our parents have been given a supernatural ability to influence us, to put God directed principles into our hearts and lives.

We need to be thankful for our bosses.

Make your bosses successful.

We need to be thankful for our pastors and their families.

We need to be thankful for God allowed conflict.

We need to be thankful for criticism.

We need to be thankful in our sicknesses.

Sickness unto chastisement.

Sickness unto the glory of God.

Sickness unto death.
